

Task

Details of the web application screen:

Design a web application screen based on the details provided below.

The web application screen should display a folder directory system. It should include the following elements:

1. A sidebar showing two Main Categories

- Orchestration
- Deployment

2. Orchestration will further consist of 2 sub-categories:

- Workspace
- Operations

3. On the selection of the Workspace section under Orchestration, show the list of folders and files inside the folders, in a tree directory structure.

4. Show at least a list of 5 Folders and the Folder should consist of 20 files.

5. Provide a 'More' option prompt where you can delete the file from the folder. When the user clicks on delete, it should open up a pop-up to ask for confirmation.

- Send 2
- Dropbox
- Add
- Arrow
- Up
- Down
- Search
- Dots

Components

The image displays a grid of UI components:

- File Management:** A card for "Rico Media" showing 1,225 files, with sections for "Shared Users" and "Inside Files".
- Deployment Status:** A card showing a gray placeholder image with the text "Deployed item name" and "Deployed date".
- File List:** A table view listing files like "Website Design.png", "UX-UI.zip", and "Office.mp4" with details such as size and last modified.
- Storage Monitoring:** A progress bar showing "32.5% In-use" of 800GB, with 260GB used.
- Search and Actions:** A search bar with placeholder "Search anything here....." and icons for file, mail, and share.
- Orchestration:** A card for "Orchestration" with sub-sections "Workspace Operations" and "Folders" (15 folders).
- File Progress:** A card showing a folder icon with a progress bar at 32.5% (260GB of 800GB) and a list of small file icons.
